## A Rumor That Charles Coghlan Has Asked Forgiveness.

### His First Wife En Route to New York to Demand Her Rights.

HER SOLICITOR PRONOUNCES HER MAD.

**Rose Coghlan Offers the Discarded Wife a Home—The Wronged Woman Prostrated by Grief—Coghlan Said to Have Once Tried to Marry a German Nurse**

**Mrs. Coghlan Has Any Local Claims on Him.**

CHALLOTTETOWN, Prince Edward Island, Nov. 5, 4 a. m. This is a well authenticated rumor that Chas. Coghlan has telegraphed his former wife asking to be forgiven.

The railway station in the little town of Souris presented an unusual spectacle Saturday afternoon, almost all the ladies in town turned out to bid Mrs. Charles Coghlan and her adopted daughter Gertrude good-by and express their sympathy and esteem. Mrs. Coghlan was deeply touched by the kindness shown her. Her appearance was much changed and it was evident that her recent trouble had been great. Now to her came arrivals in this city and his wife. Mr. Coghlan, coming had been kept quiet and only a few friends were present to meet her. She and her daughter were driven to the house of a friend. She refused positively to be further interviewed. She had received a telegram from New York telling her not to be interviewed. On Monday morning she will leave for New York and will reach Boston Tuesday evening and will be met there by Mr. John T. Sullivan, Mrs. Coghlan's husband, who will accompany her to New York.

Mrs. Coghlan while showing the effect of her trouble seemed brighter and more chatty than she has been since the news came. She said she was not at all personally responsible for his actions when he married

A reporter called at Mr. Coghlan's hotel in St. Louis at an early hour this morning to

MRS. COGHLAN'S HOME.

CHARLOTTETOWN, PRINCE EDWARD'S ISLAND, Nov. 4.—Mrs. Coghlan, the discarded wife of Charles Coghlan, is at present residing at the Little fishing village of Souris, sixty miles from Charlottetown, with her adopted daughter, Gertrude.

When Mrs. Coghlan came here and purchased property of thirty-two acres, covering a little peninsula a few miles from Souris called "The Capes." Here the Coghlan's have been residing every summer, Charles spending his time at literary work, fishing and farming. Mrs. Coghlan had selected this spot and the little place originally, Mrs. Coghlan winning the respect of all by her thoroughly lady-like manner and charitable disposition. The intention of Mr. Coghlan was to tear down the farm house and build a residence. When, last August, Mrs. Coghlan left for St. Louis, she apparently devoted to her work ever before in the course of his married life of thirty years. Mrs. Coghlan and Gertrude remained with friends at Souris, and were to rejoin him in New York later. A short time ago Mr. Coghlan arranged for them to go on an appointing a time, the promise to check on his active life, but later disavowing that so many railroad accidents were happening that it would be safer to wait a little longer. The next news was of Mr. Coghlan's marriage.

Mrs. Coghlan is prostrated with grief, and when I saw her yesterday she said that her husband was lame and blind.

She said she drove out yesterday to the summer residence after her marriage certificate and other papers, which she submitted to her solicitor, Mr. Morson, who

to-morrow morning from New York.

Last evening she visited Dr. McIntyre of Souris and obtained a certificate from him to the effect that Coghlan had been ill during the year 1906. She wished him to call in the parish priest and marry him to his German nurse while in a hospital.

"Great sympathy is felt here for Mrs. Coghlan," A. Iversen, pastor of St. Miss Anne's Church, Coghlan offering her home.

Mrs. Coghlan was seen last night and told the contents of the telegram from Charlotte-town. The actor said: "I assure you, sir, this is no trouble. To-day, late this evening, sister Rose received a telegram from her mother-in-law, Mrs. Coghlan, telling her to come to New York. It also said: 'Do not believe the papers on the bus have anything to do with anybody connected with any paper; have made no statement and shall not.' I will state here once for all that I am not a party to anything except to suffering under temporary aberration of the mind, suppose you see I am. The only thing I can say is that I love my wife and Mr. Coghlan."

The next day the offer of Miss Rose to Mrs. Coghlan that was:

"The end and Rosie are in communication and she has written me a letter saying that as the reporter left Mr. Coghlan said, 'What he has told you is correct, and any rumor about me is entirely untrue.'"

Assail an Aged but Pernicious Member of the A. F. A.

LIMA, O., Nov. 4.—The A. F. A. comes to the surface here through an outbreak of lawlessness that equals some of the exploits reported further West. Thomas Singleton, an old man who is an ex-clerk of the township, is credited with being active with the affairs of the association, and has heretofore been warned that something would happen to him if he did not stop. Last night a mob of about fifty men attacked Singleton's home, and, after burning Elizabeth street, knocking in the corners and smashing the windows, the old man was knocked conscious by a blow from a brick bat. He is now in the hospital, and it is feared that he will never leave the hospital.

Disgraceful Scramble for Mayor Harrison's Vacant Chair.

Free Fight Among the World's Fair City's Aldermen.

ONLY THE PRESENCE OF POLICE PREVENTED SERIOUS CONSEQUENCES.

Swift and McGillen the Opposite Candidates—Republicans and Democrats Evenly Balanced in Numerical Strength—A Ballot Taken Without Result—Who Is Now the Mayor?

CHICAGO, Ill., Nov. 4.—No more disgraceful scene was ever witnessed at a meeting of frowny Anarchists than that which transpired in the City Hall to-day when the Aldermen of the great World's Fair City met to scramble and fight over the possession of the dead Mayor Harrison's chair. The whole proceedings were marked by scenes of disorder, and only the presence of a detachment of police prevented bloodshed. Rivalry for the chairmanship of the meeting was so intense that a number of fist fights began in the Council Chamber almost immediately when the session opened.

The Council is almost evenly divided politically, the Republicans having a slight majority, while the dead ex-Mayor was a Democrat. Added to this there has been a fierce factional quarrel among the Republicans, the followers of Alderman George B. Swift, who beat Alderman Martin B. Madden for the Republican mayoral nomination, being accused by Madden's friends of "indecent haste" to force Swift into office. The control of administration patronage

and prestige in the coming election Nov. 7, has added fuel to the fire. A large number of judges are to be elected and extraordinary interest attaches to the result owing to the contest being made by Gov. Altgeld's friends against Judge Gary, who presided at the trial of the Haymarket Anarchists.

BEADMAN BROKE LOSE.—Aldermen McGillen (Dem.) and Hepburn (Rep.) were nominated for Chairman of yesterday's meeting of the Council and at the call of the roll the Clerk announced that McGillen was elected. He rushed to the Speaker's chair and seized the gavel.

Both Aldermen claimed the election and called for the reading of different resolutions. Hepburn, the Republican, insisted that a resolution by Alderman Madden be heard, and the latter began to read, while the clerk read a Democratic resolution. Madden handed his resolution to Hepburn and the clerk jumped upon Hepburn, seized the resolution and tore it into shreds.

Alderman McGillen.  
(Elected by the Democrats as Harrison's successor.)

In an instant Alderman Swift, the Republican candidate for Mayor, had run to the Speaker's desk, leaped over the rail and lighted on Clerk Neumister's back. The Democrats rushed to the front, Alderman Carey threw off his coat and leaped at Hepburn's throat.

"Police!" "Police!" was the call. Officers ran in and tried to eject Hepburn. They also grappled with Carey and made him put on his coat. "For God's sake act like men," shouted Alderman Campbell (Rep.) rushed to the Speaker's desk and shook hands with Alderman McGillen (Dem.). Police Inspector Ross stood behind them.

"Take your seats," ordered Alderman McGillen, "one at a time. The Chair will recognize you in time."

"I demand to be heard," said Alderman Hepburn. Upstairs followed.

Excited cries rang from every part of the chamber.

POLICE KEPT BUSY.

The police were kept busy stopping scuffles.

Finally Alderman Swift secured the floor.

"I recognize you as Chairman," he said, addressing McGillen.

"I ask my friends to do so. I will put it to a vote."

"No!" "No!" "No vote!" went up the cries.

"I am Chairman," answered McGillen.

"I am not addicted to unfairness. I will treat you right."

Alderman Madden presented a resolution providing for the selection by to-day's session of a temporary Mayor. Alderman Swift introduced a resolution which followed another disgraceful scene of disorder.

The police were called upon to restore order and the howling Aldermen were forced to take their seats. Tripp's resolution was finally passed and Swift placed in nomination by the Republicans, while McGillen was nominated by the Democrats for Mayor pro tem.

NO ELECTION.

The result of the ballot was, 34 votes for Swift, 35 for McGillen and one blank, and the chair ruled "no election."

HARRY DUNCAN, THE CONDEMNED MURDERER, LED THE NEGROES.

The Trouble Started by a Difficulty Between Harry Briggs, a Negro, and Charles Leary—Five of the Principal Offenders Now Confined in Dungeons—Jailer Kraemer's Account.

A fight, which at one time promised to develop into a good sized riot, took place among the prisoners in the City Jail yesterday afternoon shortly before 4 o'clock. About twenty prisoners took part in the fight, which had some of the appearance of a race war, the participants being negroes on one side and whites on the other. Harry Duncan, colored, who is under sentence of death for the murder of Policeman Michael Brady in Stark's saloon at Eleventh street and Chestnut avenue two years ago last month, took an active part in the fight and was locked up in solitary confinement as punishment. Four other negroes and one white man were also locked up in the "dungeons."

THE URGIN AND THE SHELL. He Was Most Forcibly Reminded of the Late Civil War.

BEKWOOD, Va., Nov. 4.—Henry Wood, a 12-year-old boy, living in Valley Bend District, Randolph county, had an experience yesterday which will impress him more forcibly of the fact that there was a war about thirty years ago, and that the most important battles were fought in Randolph County than all the time he could spend in his school histories. He was playing in the weeds when he found an iron shell weighing about ten pounds. He had a little idea what it was, but, upon examination, found it was hollow and contained a black powder, which he could shake out through a small hole. He, like, he put a match to the hole and almost instantly there was an explosion which almost tore one side of his face off, crippled one hand and otherwise maimed and disfigured him. The doctors think he will be blind. He had shaken a good part of the powder out of the old shell, or the result would have been very much more severe.

HORSE EATERS.

An Olean Boy Bought a Horse for \$5 and Feasted His Family.

BELLAIR, O., Nov. 4.—John Lorsch, a Swiss living north of this city, purchased a horse for \$5 and killed it for his own family use. He claims he got three tubs of meat from it, and that it is much sweeter than beef, for which he is compelled to pay 15 cents per pound. Some one tried to have him arrested, but the Mayor said no charge could be brought against him. It is the first case of the kind in the State.

The synod appointed Rev. G. A. Blackburn, pastor of the Second Church, to give notice in behalf of the church to the General Assembly, the other night and killed the only passenger, Doyle was sent to his home in North St. Louis. Griggs escaped.

Doyle received a shot in the left breast and right arm, and Crowley was shot in the forehead. He was sent to the dispensary and examined by Dr. Ross. Crowley was pronounced injured fatally, and he was sent to the City Hospital. He is now in the City Hospital. Doyle was sent to his home in North St. Louis. Griggs escaped.

HARRY DUNCAN, THE CONDEMNED MURDERER, LED THE NEGROES.

The Trouble Started by a Difficulty Between Harry Briggs, a Negro, and Charles Leary—Five of the Principal Offenders Now Confined in Dungeons—Jailer Kraemer's Account.

A fight, which at one time promised to develop into a good sized riot, took place among the prisoners in the City Jail yesterday afternoon shortly before 4 o'clock. About twenty prisoners took part in the fight, which had some of the appearance of a race war, the participants being negroes on one side and whites on the other. Four other negroes and one white man were also locked up in the "dungeons."

JAILER KRAEMER'S ACCOUNT. Jailer Kraemer gave the following account of the disturbance. It was between Leary and Briggs that the trouble began. Between the hours of 8 and 4 o'clock in the afternoon, the prisoners, all but those who were kept in solitary confinement, are allowed the freedom of the jail corridor for the purpose of taking exercise. Leary and Briggs got into an altercation and Briggs struck the white man. What the cause of the trouble between Briggs and Leary was is not known. Leary claimed that all that he did was to ask Briggs for a match, when Briggs struck him. A jail guard interfered when Briggs struck Leary and prevented further hostilities for the time being. Briggs was warned to behave himself, if he did not want to get a taste of the dungeon. He, however, was dogged, and shortly afterwards seized a chair and attempted to strike Leary with it. The negro was seized by the guards before he had an opportunity to strike Leary and locked up in the dungeon. While Briggs was being locked up several negroes, among them being Duncan, got to quarrelling with the white prisoners over the matter, and became engaged in a general fight. The shouts and curses of the men, and the noise made by the struggling men's feet on the stone pavement of the corridor caused much excitement in the vicinity of the jail, and those within hearing rushed to the jail entrance to see what caused the disturbance. The jail door was kept closed, however, and nothing could be seen of what was transpiring within. The sounds of strife ceased in a short time, the guards having succeeded in quelling the disturbance.

NONE WERE INJURED.

Jailer Kraemer made an investigation after the trouble was over and stated that, owing to the confusion, he was unable to obtain the names of any of the rioters, excepting the five negroes and the white man who was struck by Briggs. He said that none of the prisoners were injured. He said about fifteen or twenty men took part in the fight. The negro Robert King took part in the fight, but was not injured. Several months ago he attempted to burglarize the residence of D. C. Hall, 1601 South Grand avenue. He was caught by Mr. Hall and taken to the police station. He was charged with burglary and was sentenced to two years in the penitentiary.

GUARD THE WHITE HOUSE.

The President Supposed to Be Threatened by a Murderous Crank.

WASHINGTON, Nov. 4.—A number of officers in citizens' dress have been detailed to guard the White House and protect the life of the President, which is supposed to be in danger from a murderous crank who is at large in this city.

Last Wednesday there arrived in Washington a man who keeps a restaurant in Boise City, Id. The name of this man the police for the present refuse to divulge. Yesterday he went to the Chief of Police and told his story. He said that about a week ago a miner who was out of employment came to his restaurant, and in the course of a heated discussion about the silver question and the effects of the repeal bill on the mining interests of the West declared with emphasis that if the repeal bill passed unconditionally he would kill the man who he knew should be held responsible. The restaurant keeper did not know the man, but as he disappeared, he concluded that it was his duty to come here and notify the authorities. That afternoon he strolled up to the White House promenade and saw the first person he saw was the miner with whom he had the altercation. As soon as the man saw him he ran. He was a case of mistaken identity, and he said nothing about it until the next day, when he went to the White House and saw the same man lurking about. Then he was satisfied there was no mistake. He went to the Chief of Police and told his story, giving a full description of the man. As a precautionary measure a number of officers were detailed to guard the White House and detectives are looking for the man. The police declare that they do not believe there is any danger. The matter is being kept very quiet.

## DARK JUDGE LYNCH

Ready With 1,000 Followers to Avenge the Akson Murder.

NARROW ESCAPE OF THE HEARTLESS WEEPING WATER VILLAINS.

Story of the Crime—Four Negroes on One Trial—The Life and Adventures of a Chronic Forger—A Black Brute—White Caps Who Laughed at Bolls and Bars—The Criminal Record of a Day.

OMAHA, Neb., Nov. 4.—Plattsmouth people and Oas County farmers tried to lynch the Akson murderers today. It was intended that the information should be kept quiet, but in a short space of time the news of the arrest and identification had been sent to Weeping Water and into the surrounding country, where the murdered man had resided.

Long before noon farmers in large numbers commenced to congregate in Plattsmouth, and all expressed the sentiment that Akson must be avenged, and that without delay. The town people caught the infection, and in a remarkably short space of time knots of men assembled upon all the street corners, nearly all declaring in favor of violence.

The County Attorney, knowing that Benwell and Hill were due to arrive on the noon train, took the precaution to quietly telegraph the Deputy Sheriff in charge to leave his men in the County Jail at Omaha. When the train arrived fully 1,000 men were at the depot, completely surrounding Sheriff Tighe and his twenty deputies.

As the engine pulled up to the station the conductor looked down from his position in the door of the baggage car and remarked: "Boys, your men are not here. They were left in Omaha."

This did not satisfy the crowd and a hurried trip was made through the train by a committee appointed for the purpose. Akson, to-night it is reported in Omaha that the mob is coming here before morning to lynch the prisoners. Preparations are being made to receive them here.

Bank-wrecker Mosher was in the Plattsmouth jail when the mob organized. He stole \$1,000,000 from the Capital National of Lincoln last spring. He was brought from Lincoln a couple of days ago and confined in the city jail here. As usual he was given the best room in the house and was made comfortable by being supplied with a new coat and clean bedding. The jail is a strong building and could not long resist the force of a mob, a fact which was apparent to the bank wrecker. This morning he heard that Benwell and Hill were to be brought here and he also heard that they would be taken out and stretched to a couple of telephone poles. This information caused him to realize that he was in a bad way and he decided to make a last effort to escape. He tried to break through the bars, but he was caught and stretched to a couple of telephone poles.

This morning the County Attorney filed an information in which he charges both Benwell and Hill with murder. On another information he charges Benwell with murder and Hill with aiding and abetting.

Sam Akson, son of the murdered man, said today that there was no question but that the two men were the parties who killed his father last Wednesday night. He had seen them a great many times previous to the time when the deed was committed. He saw them when they shot the old man down, and says he recognized them the moment he saw them in the jail last night.

THE CRIME.

The tragedy occurred Thursday evening at a point six miles northeast of Weeping Water. That evening, after having had supper, Matt Akson and his son were seated in the sitting-room, when through the screen door they saw two men coming toward the house. They waited for the men to knock, but instead of doing this they immediately opened the screen door and entered. Hardly had they got inside when they began firing upon the startled men, hardly uttering a word. Mr. Akson was struck in the left breast, close to the nipple, the ball coming out on the right side. Young Akson received a bullet in the abdomen, the wound being in the right side, without doing serious damage. The young man hurriedly broke away.

Mr. Akson raised up as if about to offer some resistance, and then sank back in his chair, his head falling backward. He was dead.

The hired man, who had been attracted by the sound of the firing, rushed into the house and saw Akson on the floor, but finding that he was no more, and that the odds were greatly in the murderers' favor, he made a quick retreat, escaping with only a slight flesh wound in his left arm.

Sam Akson was in Louisville Thursday and drew \$100 at the Bank of Commerce, and it is supposed that the fellows got wind of it.

MILITARY ANTIPATHY AND BLOODSHED.

CHICAGO, Ill., Nov. 4.—The judges at the preliminary hearing of Lieut. Maney, who killed Capt. Hedberg at Fort Sheridan, Oct. 31, decided today that the case was one of manslaughter, and the bail was fixed at \$1,000, which the Lieutenant immediately gave.

Mrs. Hedberg, widow of the dead officer, was present at the proceedings, and testified with other witnesses. Nothing sensational developed.

United States District Attorney Mitchell is inclined to ascribe the killing of Hedberg largely to the antipathy the army had toward West Pointers and officers who have come up from the ranks. Maney being a West Pointer and Hedberg, who was once a private. Regarding the casting of Hedberg, Mr. Mitchell quotes documents furnished by Mrs. Hedberg, who is represented as fighting for the memory of her husband. According to the documents, Senator Hawley, speaking of the authors of the charges, addressing a committee meeting in the United States senate, said: "I have the names of the officers who were concerned in this matter and who have since been discharged. They are Col. Devin, who was aided by Lieut. Ryan, who was afterward cashiered for embezzlement and drunkenness; and Lieut. Maney, who was cashiered for attempting to bribe a council of administration, and who ran away." Lieut. Thomas Blair, who was cashiered and dismissed from the service for insanity, having left the country after civil war.

The comment made by Senator Hawley was that the evidence against Lieut. Hedberg was not sufficient to "hang a yellow dog on."

ACCUSED OF FRAUD.

CHARLESTON, Mo., Nov. 4.—The charges in relation to the accounts of County clerk O. G. Edwards to the Boarding Green and the alleged implication of the County clerk in the transactions that involved a fraud has culminated in the citizens of the county calling mass meetings in the various townships to select delegates who will present themselves to the County Court and ask to be appointed a committee for the purpose of examining into the charges which have been common talk and report back to the people. At the meeting held here today, Mr. John O. Roberts, with John A. Wink as an alternate, was selected

SAVED HIS BAG OF MONEY.

HILLBORO, Ill., Nov. 4.—Frank Plummer is station agent and conducts a store at McVey, a small town twelve miles west of here. Last night as he stepped from his place of business, two unknown men attacked him and ordered him to give up his valuables. Taking from his pocket a sack containing a good amount of paper money and a few silver dollars, he threw it over the heads of the thieves as far as he could. The robbers heard the jingle of the silver as the sack struck the ground and both started on a hunt for it. Plummer slipped away and in five minutes returned with his bag, seeing his coming both men ran away, and after a search Plummer found his sack of money, which the thieves had been unable to find in the darkness.

A BLACK BRUTE'S NECK IN DANGER.

NASHVILLE, Tenn., Nov. 4.—Ben Leavelle, a negro, is in jail at Clarksville for having terribly maltreated a 12-year-old girl of his own race, named Mary Moore. The crime was committed near Kingsland, Montgomery Co. He carried the girl off to a lonely spot in the woods, where he beat her terribly, besides turning her over a number of times to his beastly desires. The girl cried herself home this morning and told the tale of her terrible wrongs. When Leavelle was captured he had to be hustled off to jail in a hurry to prevent his being lynched by a mob of his own race.

THE DEATH SENTENCE.

BROOKVILLE, Ontario, Nov. 4.—Sentence to hang on Dec. 11 was today pronounced on Charles Luckey, who has been on trial for several days, charged with triple murder. On Oct. 8, one year ago, Luckey's father, sister and step-mother were murdered at Newbury, twenty miles north of this town, and their farmhouse set on fire to conceal the crime. Young Luckey was arrested on suspicion, having admitted that he had a grudge against his stepmother. He maintains his innocence, however.

MURDER CHARGED.

MAOON, Mo., Nov. 4.—George Baker's murder, which occurred near Ethel some ten days ago, has been arrested and lodged in jail at Union to-day. A Mrs. Patrick, an aged widow, who testified before the coroner's jury yesterday, was the cause of Baker's arrest, she having testified that Baker came to the house, asked for Baker and found him at the well. She heard five shots shortly afterward and saw Baker run away.

WHITE CAPS ESCAPE FROM JAIL.

FRANKLIN, La., Nov. 4.—Three White Caps overpowered the jailer of the parish jail of Washington Parish and escaped. They were Tom Hagge, Daniel Graves and Seymour Brock, all of whom were recently indicted by the Grand-jury for committing white cap outrages. But jail is an isolated place, and when the sole deputy sheriff in charge ordered the cell to give the prisoners their dinner they were upon him, locked him in the cell and left.

FOUR ON A TREE.

Three Negroes and One Negro Executed by Farmers.

TULLAHOMA, Tenn., Nov. 4.—Two hundred men, all mounted on horses and part of them armed, from the west end of Moore County, went to Red Waggoner's house and took out Waggoner and his son William, his

son-in-law, Sam Motlow, and Sam Motlow's wife, Eliza, and hanged them to a tree on the Booneville turnpike. They were all negroes.

Ned Waggoner's wife was terribly whipped and given three days in which to leave the county.

All the negroes hanged were said to be desperate characters. They were charged with house and barn burning, they having been overheard making their plans. The mob, it appears, were sure of their guilt. The trouble originated from Ed Waggoner being convicted and sent to the penitentiary last year for stealing wheat from a Mr. Woodcock, a farmer in that part of the county. Sam Motlow's wife last year entered Mr. Hobbs' house and robbed and then burned it. Motlow was a desperate character and attempted to kill John Powers, son of a prominent man of that county, a few weeks ago. The negroes were charged with burning Mr. Hobbs' house last year, Mr. Spence's barn two weeks ago, and other barns recently.

Ned Waggoner was a rather large negro, and it is supposed the first attempt of the lynchers was unsuccessful in his case, as a broken rope with a hangman's knot was found under the tree near him and another one had been procured from the well bucket of a near neighbor, by which rope he was found hanging.

## NINE IN THE DEEP.

Of Twenty-two Workmen in a Capsized Boat Only Thirteen Saved.

THE DREADFUL SPECTACLE VIEWED BY PEOPLE ON STATE ISLAND BEACH.

An Overcrowded Yawl and Too Much Heat—The Furged Steamer City of Alexandria—A Fatal Fall—Margined in a Runaway—Drowned While Drunk—Disasters of a Day.

New York, Nov. 4.—A party of twenty-two workmen who had been all the week employed in making repairs on Hoffman Island, in the lower bay, were rowing to the State Island shore this afternoon when the boat in which they were seated capsized. All were thrown into the water. Thirteen managed to cling to the bottom of the boat until picked up by tug; the others were drowned. The body of one was recovered an hour after the accident occurred. The names of the drowned are:

John Croxy of 8 Beach street, New York. Chas. Drude of the Twenty-sixth Ward, Brooklyn.

Edward Kenny of New York. Benjamin McGuire of New York.

Thomas Hoey, Charles Smith and James Malloy of Brooklyn.

Albert Norman, Tompkinsville, S. I.

Leonard Wanser, Amityville, L. I.

The cause of the accident was that the boat was overcrowded. All the workmen were anxious to get home as soon as possible to spend Saturday night and Sunday with their families. There was a storm prevailing when they left Hoffman Island. Who was sailing the boat has not been learned, and all those who reached shore alive do not care to tell, for reasons best known to themselves. When the overloaded boat was midway between South Beach and Hoffman's Island it capsized. Tugs hurried to where the men were struggling in the water, trying to get off their clothes and keep afloat at the same time. By the time they were picked up the others had disappeared completely. The tug, with the survivors on board, ran into South Beach and landed them on the pier there.

The boat in which the men left Hoffman Island at 1:30 o'clock was a yawl carrying a sail. The wind had freshened up to a gale in the northeast, and it was with difficulty that any headway was made in the heavy sea running at the time. The survivors say they were within 200 yards of South Beach when a heavy sea caught the boat and turned it over. The first assistance came from a sloop launch from Hoffman Island. The accident was witnessed from the shore at South Beach and several small boats put out to her rescue. When the survivors were brought in to South Beach each happy home was converted into a hospital. Shortly after landing many of them became unconscious. The doctors, who were hastily summoned, were not able to state this afternoon if all the rescued would live.

## A DISASTROUS DRIVE.

SAVANNAH, Ga., Nov. 4.—The story of a fatal runaway accident near Ophoepe yesterday afternoon has reached this city. The result of the accident was the death of one young lady, a Miss Stevens, and the injury of three others. One of the injured was a sister of the lady who was killed. The other ladies who were hurt were the Misses Dix, two sisters.

All these young ladies lived near Ophoepe, and are daughters of prominent farmers in that locality. Yesterday afternoon they hitched a mule to a double-seated stage and, with a small boy holding the lines, went out for a drive. The mule became frightened and ran away. The boy and one of the Misses Stevens jumped out of the phaeton and escaped with only a few bruises. The other young ladies, however, were not so fortunate. The mule ran the buggy against a tree and the shock threw the young ladies out of the vehicle with tremendous force. Miss Stevens was instantly killed, her head striking the ground violently and her skull being broken. The Misses Dix were also thrown to the ground with great force, and one of them was quite seriously injured. The young lady who is now at her father's home near Ophoepe, and her injuries may be fatal. In her death, the other Miss Dix, the younger of the two sisters, was not badly injured, though she was considerably bruised by the accident and very much shocked by the terrible termination of the ride.

## SHOT BY ACCIDENT.

HILLBORO, Ill., Nov. 4.—Robert Lyons, a man of family, found this week in his house at the village of Plainview with a charge of shot in his head, has died. Lyons recovered consciousness before dying and stated that a gun lying at his side was accidentally discharged while he was taking it from its place of concealment. Lyons was alone at the time of the accident.

## THROWN FROM HER HORSE.

DOVER, N. H., Nov. 4.—Mrs. George Horn, wife of a prominent farmer living eight miles east of here, was thrown from her horse yesterday, receiving injuries from which she will probably die. Her lower jaw was broken on her side and her left arm broken and badly bruised just below the shoulder.

## CUT TO PIECES BY A SAW.

WEST PLAINS, Mo., Nov. 4.—Robert Cash, a saw-mill employee in Douglas County, was killed one day this week. He was tending the saw and in some manner fell against it and was cut to pieces, both of his arms being cut off and his bowels partly cut out. He only lived a few moments.

## SMOKED WORTH \$100,000.

GALENA, Kan., Nov. 4.—The entire plant of the Galena Smelter Works burned to the ground at noon today, wiping out an investment of \$100,000. The works had just been remodeled and started up last week with two blocks of furnaces.

## A FARMER'S FATAL FALL.

MARCOUTAN, Ill., Nov. 4.—Adam Roth, a well-known farmer residing south in Englewood Township, was climbing a pear tree yesterday, when a limb gave way and he fell life feet to the ground. He did not regain consciousness and died in a few hours.

## FIVE KILLED.

SPRINGFIELD, O., Nov. 4.—A work train of cars on the Ohio Southern Railway jumped the track near Paris, eighteen miles north of this city, last night. Five Italians were killed outright and eleven more injured, some of them fatally.

## THE BURNED STRANGER.

New York, Nov. 4.—A morning paper has the following from Havana: When the news of the burning of the City of Alexandria reached this city yesterday, it was first reported that sixty lives had been lost. The latest details of the disaster put the number of dead at six.

## PASSED A WRECK.

CHICAGO, Nov. 4.—Capt. Hudson of the steamer Emma Thompson, who arrived to night from Hunkeler, reports passing the wreckage of a lumber schooner, apparently of a size carrying a crew of at least seven men. It is feared the crew was lost.

#### COLUMBIAN HALF DOLLARS.

Did Not Prove as Great a Source of Profit as Expected.

WASHINGTON, D. C., Nov. 4.—The souvenir Columbian half-dollars did not prove such a great source of profit as the World's Fair managers expected. When they were first issued by the Government they commanded as high as 50 cents, and the Fair managers were able to borrow from the Chicago banks with them as collateral an amount considerable in excess of their face value. During the financial stringency, when several Chicago banks were compelled to close, \$200,000 of these coins found their way back into the treasury. Two millions and a half of these half-dollars were got turned out by the mints at all, and the Fair managers are now faced, in order to protect the people who paid 50 cents for them as souvenirs, to reimburse the Government for the expense of their recollage into regular half-dollars.

Foreign World's Fair Commissioners Making Further Complaints.

WASHINGTON, Nov. 4.—Assistant Secretary Hamlin, who has just returned from Chicago, stated today that he had seen a dispatch from Chicago stating that foreign commissioners accuse the Exposition officials of being in league with the United States customs officers for the purpose of retarding the removal of foreign exhibits from the department buildings, and make other complaints.

Secretary Hamlin said he knew nothing whatever of these alleged acts of the customs officials, and he would promptly investigate any complaint of that kind that was made to the department. While he was on the subject, he said that he had seen a dispatch from Chicago stating that foreign commissioners accuse the Exposition officials of being in league with the United States customs officers for the purpose of retarding the removal of foreign exhibits from the department buildings, and make other complaints.

"80." In other words, Garrison, who has ridden the horse right along, and ought to know, believes Tammany to be about five seconds faster than Salvator was when that heat flyer electrified the racing world by washing all records at a mile. "I would've beaten Salvator," said the greatest of American jockeys. "In the match race it

Tenny hadn't swerved and suked when passing his stable. Tenny was abused and was on off his legs. I think Salvator was always better horse than Firenze! at any distance to a mile and a half. None of these three could have made Tammany exert himself much. He is the fastest and best horse I ever threw leg over." Garrison has a high

He said St. Louis Stocker Draw officials will hold a meeting to day to consider the feasibility of constructing a new mile track across the river. Joe Ullman stated yesterday that he did not think this would be decided upon, unless Frank Shaw and his associates construct the new mile track which was announced would be in operation shortly. "If Shaw and his friend build a

track, we certainly must do so to keep with the procession," said Ullman. "I inclined to think, however, that Shaw's scheme will never pan out, but that will not prevent us from lengthening out our present trek into a three-quarter mile affair," added Ullman. Shaw is now said to be anxious to secure possession of the Madison park which was to have been sold earlier.

W. Rogers of the famous racing firm of Wm & Rogers, which owned Lamplighter before the colt was bought by Pierre Lorillard, wanted to buy Lazzarone, the king-bred Western 2-year-olds. Eugene Leigh, colt's owner, priced him at \$15,000. Mr.

## NO PEACE YET.

Daily Exchange of Shots Between Ships and Forts at Rio.

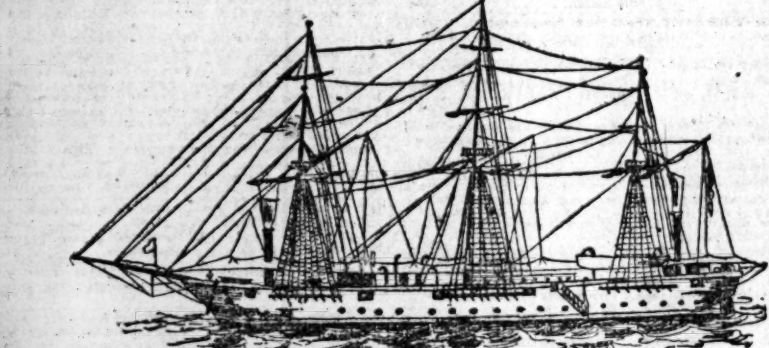

Nothing Transpiring to Indicate an Early Close of the War.

CAPT. PICKING'S COMMENT TO THE NAVY DEPARTMENT.

Cleveland Will Maintain the Most Friendly Relations With the Peixoto Government—Secretary Gresham Holds That Support Should Be Given the Brazilian President to Suppress the Rebellion—Admiral—Central American Troubles.

WASHINGTON, D. C., Nov. 4.—Secretary Herbert today received the following cablegram from Capt. Picking, the senior officer in command of the United States fleet in the Bay of Rio:

Rio, Nov. 2.—Firing daily between opponents, but without result looking to settlement thus far. No interference with our commerce. This cablegram was transmitted in cipher and without punctuation, but Commodore Ramsey is confident that the division of sentences should be made as quoted above. He understands that the bombardment of the forts is still being carried on, and that Santa Cruz and the other fortresses are firing on Mello's ships, but that no damage has been

Brazilian Warship Trajano.

one which would indicate either the early capitulation of President Peixoto or the surrender of Admiral Mello. Both the State and the Navy Departments are fortifying themselves with the precedents of international law in support of the Administration's friendly attitude towards President Peixoto. The following extract is from Woolsey's:

"International law" is regarded as covering the case fully and furnishing all the justification needed for the part this Government has taken up to this time. "No state is authorized to render assistance to provinces or colonies which are in revolt against the established government, for if the existence and sovereignty of a State are once acknowledged nothing can be done to impair them, and if the right of interference in favor of liberty, for instance, be once admitted the door is open for taking a part in every quarrel. On the other hand there is nothing in the law of nations which forbids one nation to render assistance to the established government in such case of revolt, if its assistance is invoked. This aid is no interference and is given to keep up the present order of things which international law takes under its protection." Secretary Gresham holds that the United States would be fully justified in giving aid and support to President Peixoto in the effort to put down the Mello rebellion should the Brazilian government prefer such a request through the regular diplomatic channels. He is confident that such action there can be raised as to the right of this Government to issue clearance papers to all vessels that may be purchased by Brazil for the use of her navy, and may also permit American citizens to enlist at will in the Brazilian service, though, of course, the United States would not undertake to protect them against the fortunes of war after such enlistment.

It was stated at the State Department today that the last advice from Brazil showed that no action had been taken by any foreign representatives, either naval or diplomatic, which would justify for a protest taken by the United States. The firm stand taken by President Cleveland when the monarchistic plots were first discovered more than a month ago probably had the effect of nipping in the bud any plans for the restoration of Dom Pedro's heir.

CONSPIRACY AGAINST VASQUEZ. TEGUCIGALPA, Honduras, Nov. 4.—It is reported that the Government has intercepted correspondence from Luis Logan to Ponciano Leiva, both ex-presidents, showing the existence of an extensive conspiracy against President Vasquez. Arms to carry on the proposed revolution, it is said, have been bought in New York and New Orleans through an Englishman, long resident of St. Louis, and for a time in this country where he wielded a strong influence during the Presidency of Bogran. Orders have been sent to the agents of the Honduras Government to look out for the shipment of arms. A revolution looks hopeless, as the Vasquez Administration is popular. Bogran, the only general who could head a revolution, is in Nicaragua, where he is high in the councils of President Zelaya, and not likely to lay down a good thing in order to take part in a revolution here. Bogran and Leiva are not popular either with the troops or the people. Bogran is improving slowly. The government is almost in a position to meet its obligations. A new budget is being prepared.

NEW SHOOT HARD UP. SAN SALVADOR, Nov. 4.—The financial condition of the country is becoming alarming. Troops have not been paid for six weeks. Civil employees have not received any money for three months. School teachers have been unpaid for six months. The government has been largely mortgaged to a Spanish syndicate. It is feared that the government will be unable to continue the railway subsidies, in which case construction will cease. The coffee crop promises only fairly well. Advanced reports indicate that the coffee quantity marketed. It is rumored that new tariff and revenue laws are being prepared.

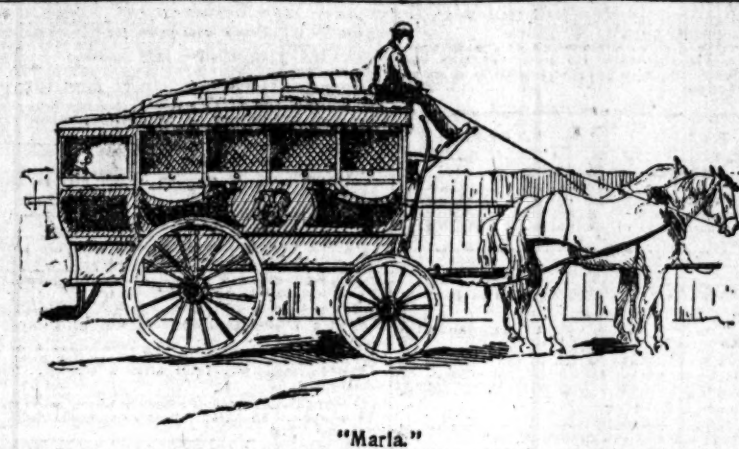

A FALLING GOVERNMENT. MANAGUA, Nicaragua, Nov. 4.—Troops have been sent to Leon and Granada, where rioting continued yesterday and today. It is

## "MARIA'S" ROUNDS.

A NIGHT TRIP WITH THE POLICE, GATHERING UP PRISONERS.

Written for the SUNDAY POST-DISPATCH. Promptly at 2 o'clock on the morning, with the wind blowing somewhat keenly, "Maria" started away toward Twenty-eighth street, accompanied by her faithful attendants, Tom and Peter, both of whom have been her constant companions for many years, although for almost as long they have not spoken to each other except on business. "Maria" was going out on her regular visit to the police stations and Peter and Tom were to see her through all right. "Maria" was not going on a strolling tour at that hour in the morning, as seems to be a popular practice with some equally temperamental ladies. "Maria" was simply doing her duty and would eventually land at the Four Courts with some very bad company.

When or how she was baptised is not known to those who know her now. "Maria" was what she was always called, and that is for them sufficient reason. She looks very much like a transfer omnibus, painted black, with closely barred windows and a sort of

Every night "Maria" collects from the various stations and sub-stations of the Police Department such prisoners as are to appear in any of the courts at the Four Courts on the day following.

A SUNDAY POST-DISPATCH reporter went around with "Maria" the other night. There wasn't room for him in the sedan chair arrangement with Tom Lynam, so he climbed up onto the roof with Peter, who does the driving and fishes handcuffs out of a big box as they may be needed for new passengers. They were a very shabby lot and one of them nothing more than a "cherry." "Where in the name of heaven did you come from?" asked Lynam.

"Fulton street," promptly answered the boy. "Yes, you look like it, too. I've a good notion to put you in the lock-up," said Lynam in his fiercest tones. "Aw, go chase yourself," advised the boy with a look of disgust on his face. He was too small to handcuff, so he was cast into the dark interior of the "Maria" and was left to the mercy of the night air. After a night's lodging, the Four Courts gauged the night's lodging. A SUNDAY POST-DISPATCH reporter went around with "Maria" the other night. There wasn't room for him in the sedan chair arrangement with Tom Lynam, so he climbed up onto the roof with Peter, who does the driving and fishes handcuffs out of a big box as they may be needed for new passengers. him he would not state. The ever ready handcuffs were produced and the would-be suicide was fastened to one of the bars of the cell. In due time the prisoners were brought out. They were a very shabby lot and one of them nothing more than a "cherry." "Where in the name of heaven did you come from?" asked Lynam.

"Fulton street," promptly answered the boy. "Yes, you look like it, too. I've a good notion to put you in the lock-up," said Lynam in his fiercest tones. "Aw, go chase yourself," advised the boy with a look of disgust on his face. He was too small to handcuff, so he was cast into the dark interior of the "Maria" and was left to the mercy of the night air. After a night's lodging, the Four Courts gauged the night's lodging. ## NOT A GRAND RALLY

A Fledgling Characterless Last Night's Republican Meeting.

E. C. SHAW BACKS WATER ON HIS PREVIOUS A. P. A. REMARKS.

"Do Or Man" Harangues the Gathering About Public Schools, Martin Luther and the Republican Campaign in Ohio—The Small Gathering Grew Beautifully Less as the Speeches Progressed.

A handful of Republicans at "Uriah's" Cave last night composed the last grand rally of the party before Tuesday. Before the meeting was called to order, somebody remarked upon the small attendance and the general verdict was that the crowd had gone to hear ex-Priest Slattery.

About 8:30 Deputy Coroner Rohlfing after searching around discovered ex-Mayor Nathan Cole and persuaded him to act as chairman. Mr. Cole refused at first, but finally consented. A band of the faithful was then hunted up and placed upon the stage in a semicircle, like the first part of a negro minstrel show, Messrs. Kolbeldt, Rohlfing, Gerner, Scudder, Chartrand, Filley, McMath, Pope, Landvogt, Wahl and Ulrich occupying seats in the front row. The middle in the interior of the place. Mr. Cole was then named by the chairman of the Central Committee as the presiding officer of the meeting.

Mr. Cole said: "I am happy to preside over this meeting of friends of law and order. Friends of the glorious public school system. I greet you with all my heart upon this auspicious occasion—auspicious because it follows the great convention of a few weeks ago at which we nominated four great men to guard the interests of the public schools."

Mr. Cole made a few more important remarks and then Mr. Filley was called for. "The old man" left his place in the center of the circle and, coming down to the front, said: "Let somebody else talk. I've been over in Ohio talking for a week. Let the candidates talk," and the old man walked back to his place, telling the chairman to call on Grawe.

GRAWE BACKS WATER.

Mr. Grawe declared in favor of the public school system and said he had never made any remarks credited to him by the press. "I believe in education for all classes, and think the public school is for Protestant, Catholic, Jew or Gentile. There ought to be no religion in it at all," said the candidate.

Mr. Landvogt was next called and said: "The making of speeches is a little out of my line." (Mr. Landvogt is an undertaker.) Mr. Landvogt said: "A director's sole remuneration is honor." He did not explain whether he meant a school director or a funeral director. Mr. Landvogt was with the same speech he made in North St. Louis a few nights ago.

Mr. Ulrich then said a few words and gave way to Mr. Wahl, who said he did not come to be called upon to make a speech and quit very short.

The crowd seemed happy and called upon Filley.

Mr. Filley then came down from the stage, removed his overcoat and said in. He tied the school question in knots, and did a sleight of hand trick with his silk handkerchief, went back into the good old colonial days, chased the question all over vacant lots and around the rail fences of New York and Connecticut, and then got tangled up with the campaign of Ohio.

"The old man" then went back to the days of Martin Luther.

John Knox, and declared they were the founders of the free school system.

Mr. Filley took his place in the board, and said he had refrained from taking interest in the school question because there was no politics in it.

Mr. Filley then said a few words and gave way to Mr. Wahl, who said he did not come to be called upon to make a speech and quit very short.

Mr. Wahl then said a few words and gave way to Mr. Wahl, who said he did not come to be called upon to make a speech and quit very short.

**The Other Grain Markets Were Well Maintained in Value—Flour Remains Dull—Cotton Advances—Interesting Information for the Trade.**

There have been no new or interesting developments on the oat market. Speculation is still at a standstill and it is very seldom that large deals are made, but with all this dullness the price has advanced. It has been on the rise since May through Dec was snable at about 75c and May at 81 1/2c, but seldom did it rise more than 1/2c. It has been on the decline since Jan. Close and small as have been the profits on the grape this season there have been some big bargains in the field, and where least expected. The big grape union in New York, the largest in the world, has been the heaviest shipments from Ohio were the grapes, and the patrons of the union grew rest. The grapes were not the best, but the water than required. The situation threatened for the union, and they were
